

## IRC providing funds to each beneficiary

November 15, 2021 – Given the ongoing challenges brought about by the COVID-19 Pandemic – and recognizing the need for continued support in all of our communities, please note that the Inuvialuit Regional Corporation will be providing each beneficiary with a \$200 COVID support payment.

To ensure the rapid delivery of these payments, and to ensure that all Beneficiaries receive these payments in a timely fashion, IRC has already begun issuing these payments. Those in receipt of electronic payments should have received their support payment already. All other payments should be received this week.

“IRC is pleased to be able to assist all beneficiaries with funds to help offset the effects of COVID-19 and allow you to stock more groceries, cleaning supplies and add to children’s activities at home,” said Duane Ningaqsiq Smith, IRC Chair and CEO.

IRC has successfully advocated for these funds to help financially boost each beneficiary at this trying time. We will continue to advocate for additional funds to support Inuvialuit as the Pandemic continues.

Quyanaqpak, quyanainni, koana for continuing to practice all safety measures to ensure the safety of your family and community.
