Please be advised that Bird Construction Industrial Services Ltd will be soliciting proposals for a contractor to supply highly skilled and trained personnel as well as equipment to provide crane and hoisting support on an upcoming project in the Inuvialuit region.

- Project – Inuvialuit Energy Security Project
- Location – 16 km South of Tuktoyaktuk
- Timeline – Part time support from September 2025 to March 2026, and on-call support from March 2026 to April 2027
- Scope of Work – Provide high-accuracy construction survey support, primarily as part of the installation of ~1,050 adfreeze piles
 - Establish on-site survey control points and monuments
 - Layout pile installation locations
 - Verify pile location accuracy and plumbness during installation
 - Mark pile cutoff elevation once installation is complete and piles are frozen in place
 - Survey as-built location at cutoff of installed piles, report deviations to Bird
 - Support setting pilecaps on design location to be welded
 - Survey as-built location of welded pilecaps and mark centerlines on design center
 - Survey as required locations of buildings, tie-points, centerlines, benchmark elevations, and other coordinates as required throughout the course of the project
 - Compile and submit to Bird a complete and accurate as-built report of all pile coordinates and other surveyed points to be included in the project turnover records

The RFP will have a focus on safety, technical capability, and the inclusion of local workforce wherever possible. Priority will be given to active members of the Inuvialuit Business List (IBL). All proponents interested in being included in the RFP are to respond no later than 4:30 pm on Friday July 11, 2025 to tamara.perry@bird.ca, Christian.desnoyers@bird.ca, and Christian.ilagan@bird.ca using the title line “Inuvialuit Energy Security Project – Survey Support – RFP”, and including contact information for individuals within your organization who should receive the RFP.

Your sincerely,
Bird Construction Inc.

Christian Desnoyers
Project Manager
