

Request for Proposal:

Inuvik Office - Install Fume Hood

Clarification #1

Issued by:

Inuvialuit Regional Corporation (IRC)
107 Mackenzie Road
Inuvik, NT X0E 0T0

Deadline for submissions: February 13, 2026, 14:00 (2:00PM) MST

Clarification 01

Project:	DFO Inuvik Fume Hood Replacement	Date:	February 2, 2026
Project #:	0050058.00	Client:	Inuvialuit Development Corporation

No changes to the specification or drawing package has been made based on this clarification.

1.	Inquiry	The supplied Fume Hood is a Labconco model 2247300 with an Integral Blower, the drawings also show an inline fan EF-3 in the ceiling space ducted through the roof, the equipment schedule for EF-3 list a Twin City Fan & Blower Model TFE which is an exterior mounted unit. Please provide clarification on the Fume Hood exhaust venting.
	References Answer	<p>Refer to Drawing M03</p> <p>The integral blower is anticipated to have insufficient external static pressure for this application. The blower is to be removed from the fume hood and returned to the owner.</p> <p>EF-3 is to be installed in the ceiling space of the lab. This is detailed in the drawing package.</p>
