

Inuvialuit group of companies announces record \$8.6 million distribution to Inuvialuit beneficiaries for 2026

April 22, 2026

The Inuvialuit group of companies—including Inuvialuit Regional Corporation (IRC), Inuvialuit Investment Corporation (IIC), Inuvialuit Development Corporation (IDC), Inuvialuit Petroleum Corporation (IPC), and Inuvialuit Land Corporation (ILC)—is pleased to announce exceptional financial results, reporting record earnings of \$137.9 million for the fiscal year ending December 31, 2025. Our prudent investment strategy has increased IRC’s assets to \$1.91 billion, reinforcing its financial stability.

As part of our ongoing commitment to Inuvialuit beneficiaries, IRC continues to distribute a portion of earnings through trust payments. To date, more than \$90 million has been delivered to beneficiaries, while the remaining funds have been strategically reinvested to support community priorities and the long-term wellbeing of future generations.

“This distribution represents far more than a dollar amount—it reflects stability for Inuvialuit families and meaningful investment in our communities. These funds help support household needs, strengthen local economies, and create opportunities that contribute to healthier, more resilient communities today while laying a foundation for future generations,” says IRC chair and CEO, Erwin Elias.

The 2026 distribution payment of \$1,706 will be made on May 1, 2026, to each of the 5,050 enrolled beneficiaries. This payment totals \$8.6 million and represents an increase of 27% from the 2025 payment.

* EFTs will automatically be paid to those who have signed up for direct deposit. Cheques will be mailed on May 1 to those outside the region. IRC can replace cheques that are lost or stolen only after June 10. Email enrolment@inuvialuit.com or call 867.777.7000 on or after June 10, 2025.
